

Banana Claims

(Who is the "Sucker"—
Now?)

See Harry T. Mills of the Past Due Agency, 848 Kaahumanu Street, for the collection of claims; the TIME is ripe—even if the FRUIT was unlawfully destroyed.

Farm Tract, the plat filed with the engineer having been found to comply with existing regulations.

The City Engineer reported favorably on the correctness of the building line set and observed in the construction of a new building at the corner of Nuuanu and Beretania streets, the engineer stating that in checking up the lines had been found to follow the grades given by the department.

The application of W. C. Achi for recognition of an alley he is putting through private property near the corner of Beretania and Alaui streets is disapproved by City Engineer Gere. In a letter to the Supervisors Mr. Gere says that the alley is too narrow for passage of teams, and makes a right-angle turn. He says the responsibility for such a lane and its maintenance should never be assumed by the city.

A. R. Gurrey, representing the Board of Underwriters as secretary, reported that the Standard Oil Company was observing existing regulations in the disposal of gasoline and oils throughout the city, as well as the storing of the same.

The Lord-Young Engineering Company has been granted permission to erect a low board fence along the Union street side of the C. Brewer building site, with the expectation of keeping Hotel street clear of building material and preventing the blocking of the same by teams during the construction of the new building.

William F. Kaas, clerk for the County of Maui, has written the Board inquiring as to what action has been taken toward the purchase of game birds. He states that Maui County Supervisors favor the importation of Japanese blue pheasants for the highlands and Mongolla pheasants for the lowlands and that the authorities there stand ready to place an order for either in conjunction with other counties in the Territory.

The Supervisors have authorized City and County Clerk Kalanokalani to call for tenders for furnishing the municipality with a motor-driven police patrol wagon, the bids to be on hand and to be opened on the evening of April 28th.

THE KEYSTONE TO HEALTH IS HOSTETTER'S STOMACH BITTERS

You can strengthen the system, keep the bowels open, prevent Malaria, Fever and Ague by taking the Bitters.

ELEVEN STUDENTS FROM HAWAII AT "TECH."

Registration figures show that the number of foreign students in 1911, within one of last year. The notable increase is in Chinese, 36, against 27 of last year. Fifty-five per cent. of the students are from Massachusetts, while the rest of the country is in general as well represented as last year. Boston has 242, Cambridge 123, Newton for second place at 37, Brookline 23, Newburyport and Somerville 23, and Lawrence 20. Malden, Lynn, Waltham, Medford, Melrose, Everett, Brockton and Winchester for suburban cities have from 10 to 20, and in this group is Springfield with 15. There are 23 others cities and towns that have five to nine students at Tech. There are 11 students from Hawaii, Philippine Islands and Porto Rico. Massachusetts has 560 students, the rest of New England 130 more, the Middle States 163, the West Coast 40. —Waltham Free Press.

HAWAII LURES CROCKER

J. Templeton and Bride Plan Visit to Honolulu.

Mr. and Mrs. Charles Templeton Crocker have announced their plans for spending a number of weeks in the Hawaiian Islands as the guests of Mr. and Mrs. William G. Irwin. They will sail for Honolulu immediately upon their return from Southern California. —S. F. Chronicle.

MRS. CROCKER BREEN LOSES

NEW YORK, Feb. 28.—Ethel Crocker Breen, wife of John J. Breen, a riding master, daughter of Richard Crocker, former Tammany boss, has failed to win a divorce. The jury disagreed.

WE URGE YOU when buying your next suit to see our showing of "BENJAMIN" Clothes. In purchasing one of these suits you get more than you expect.

Every suit of this make is absolutely guaranteed before leaving our store.

If you know anything about good clothes come and see what we have to offer.

THE CLARION

CORNER FORT AND HOTEL STS.

FEDERATION ACTION GARBLED

(Continued from Page 1)

motion printed at the head of this column. The federation has not gone on record to eliminate party lines in municipal elections, but has called for one of its committees to confer with other civic bodies and report back.

The morning paper, which has been shouting for a non-partisan movement, such as was turned down in the rejected resolution yesterday, further made itself ridiculous with an editorial on the subject this morning, which it based on a wholly false assumption as to what the federation did.

Lorrin Andrews, his vaunting oratory and his puffy oratorical hand were again in evidence at the meeting yesterday. Andrews has been trying desperately to pry his person into the political game somewhere, but as yet he hasn't succeeded to any great extent. Andrews' chief theme yesterday was along the line of the copyrighted phrase, "Now is the time for all good men to come to the support of the party," except that Lorrin, having been spanked by one party and failing in an attempt to organize a "third party," wanted to make the phrase read, "Now is the time for all good men to come to the support of a non-party," not to speak of someone else's support.

Andrews walked loudly that the local government is going to the bow-wow, and every so often he rung in "clean government" as if he were practising up on a new expression.

There were a number of others who wanted to see government of the most efficient kind, and this sentiment finally crystallized into the resolution ordering the committee to investigate and report back. Dr. Victor S. Clark is given as the mover of the resolution, but President Arthur G. Smith is said to have framed it, and this morning expressed himself in sympathy with the idea.

"I am not in favor of such a resolution as the one reported erroneously to have passed," said President Smith this morning.

The federation yesterday re-elected Mr. Smith to head it, as the Bulletin forecast some days ago. Mr. Smith's efficient leadership was recognized by all, and it was only a question if he would consent to run again. The other officers were also re-elected, as follows:

R. B. Anderson, vice-president; J. M. McChesney, second vice-president; C. H. Dickey, treasurer; W. A. Bryan, secretary.

The discussion over various resolutions presented along the line of more efficient government was long and spirited. A number of resolutions were presented, some being withdrawn, others rejected.

ISLAND LOCALS

A Japanese brakeman on an Oahu train was killed last Tuesday at Puhon, in the vicinity of the depot. The entire top of his head was crushed between the coupling of two cars, and he died instantly. No one saw the accident occur. A coroner's inquest returned a verdict of accidental death.

T. H. Lillie celebrated his birthday last Saturday evening with a small dinner party.

Mr. and Mrs. Hugh Watt entertained Mr. Reid for the week end.

Mr. Hutchins met with an accident at Mahukona from a giant powder blast. Stones struck him in the face.

Judge Hall of Honolulu has been in bed for several days owing to a very severe cold he contracted some time last week.

Abel Makela gave a stag party in honor of Messrs. Bohlenberg and Reinhardt and fellow workmen of Hilo who for more than a month have been working on the Kukulhaele school. The party occurred at the home of Senator Makela.

The Kukulhaele manager will have Mr. Smith of Hilo as a section luncheon for Kapulena in the near future. Mr. Smith will live in the unoccupied old home of Mr. Williams.

The Kamehameha Glee Club gave a rousing program of rare musical selections at a concert held in the Hokena schoolhouse, Saturday, March 2. The same aggregation gave another concert in the Kona-waena school on Saturday, March 3.

The schools of South Kona will again compete in a congress of song, on March 30. It is rumored that E. Fernandez will be in Hokena during the congress of song, and that he will have a film taken of it—Kohala Midway.

The Hawaiian Engineering Association will hold a meeting at the College of Hawaii tonight at 8 o'clock. Mr. S. T. Carr, sales engineer of the Hawaiian Electric Company will lecture on "Industrial Application of Electric Motors."

KAUAI CANNERY IS SHAPING UP

Matters in connection with the additional lands at Kapa, Kauai, which are to be homesteaded providing cannery can be established there, rapidly assuming more definite shape according to a report received yesterday afternoon by the Governor.

"As I have mentioned before," stated, "we have been trying to range a scheme whereby a cannery might be erected at which the apples grown on these lands could be sold. There were eighty homesteads put up, about forty large ones and the other half small. The larger ones have now all been taken up although some of the owners are growing pineapples, but there is no place to sell them."

"In view of this fact we have been trying to make arrangements for cannery down on the coast which be connected by a railroad line, which we have already made arrangements. There are about twenty of the homesteaders who have already signed their intention of plan the land with pineapples, but the area will only amount to some 100 acres, and this is not enough inducement for the cannery to be put up."

"There is another block of land lying between the homesteads and cannery which the cannery people want to lease. There are about 100 acres in it and this would give a steady supply and also enable to warrant the erection of the cannery. There is also another block of land adjacent to the homesteads about 2500 acres in it that can be homesteaded."

"Now we can lease the piece of land we want but we cannot put the big area. This last can be put to homesteads when necessary, and course we will have the usual provision made in the lease to the cannery if it is made, that the land may be withdrawn for homesteads at any time. That is how the situation stands at the present time but I have not decided on what action should be taken."

GOOD PROGRESS ON NORRIS-MIDWAY WELL

The Norris-Midway well is now down to 2000 feet, according to reports received here, by the local agents. This shows that drilling is going ahead rapidly and successfully.

The cable news from D. P. R. Isenberg to the effect that the prospects are very encouraging has in turn encouraged the local investors and Norris-Midway stock seems due for a boom.

The Hawaiian Engineering Association will hold a meeting at the College of Hawaii tonight at 8 o'clock. Mr. S. T. Carr, sales engineer of the Hawaiian Electric Company will lecture on "Industrial Application of Electric Motors."

An Analysis of G. Washington Coffee

Lederle Laboratories

41 West 38th St.
New York City.

No. 52,600.
May 20, 1910.

Certificate of Analysis

The sample of Coffee Extract, received 5-16-10,
Marked "Red E Coffee"

Has been examined with the following results:

Loss at 100°c	5.22
Ether Extract, Fixed	0.25
Total Nitrogen	3.27
Caffein	8.10
Crude Fibre	0.25
Total Ash	17.33
Insoluble Ash	3.95
Soluble Ash	13.38
Alkalinity of Ash—Soluble	17.00cc n/10 acid for ash of 1 gram
Insoluble	5.16 " " " "
Reducing Sugars	2.80

The analysis shows no ingredient foreign to a preparation consisting of the pure soluble constituents of coffee.
